

BREAK BREAD CONSULTING

New Location & Store Opening
Fractional CTO Services

INTRODUCTION

Opening a new location requires an intricate balance of technology, operations, and design, ensuring that all brand and operational requirements are met seamlessly. Whether new to the restaurant industry or an experienced operator, staying current with rapidly changing technology can be overwhelming. At Break Bread Consulting, we bring the expertise you need.

Our New Location & Store Opening Fractional CTO Services provide full-scale coordination between operations, construction, and IT vendors to ensure a streamlined and successful opening. Let us manage the complexities, allowing you to focus on delivering exceptional guest experiences.

SERVICES OFFERED

01 Cross Functional Coordination

Vendor Contracts & Terms

We negotiate contracts, pricing, and terms with IT vendors to secure cost-effective, long-term partnerships that support the restaurant's operational goals.

Technology Vendor Selection

We assist in selecting software, hardware, and service providers that align with your brand's objectives and budget, ensuring cohesive technology solutions.

Compliance & Legal Considerations

Our team ensures all technology systems comply with industry regulatory standards, such as GDPR for data protection and PCI DSS for payment processing, safeguarding your business from legal risks.

02 Project Planning & Execution

Critical Path Development

Our project management team develops a critical path for each technology installation, from setup through team training, ensuring all systems are operational by the opening date.

Vendor Coordination & Management

We oversee vendor relationships and timelines, coordinating the installation of hardware, software, and network infrastructure to ensure seamless integration.

System Installations

We coordinate the installation of essential systems, including POS, back-office tools, and other technology platforms, managing third-party providers such as payment and loyalty program vendors.

Custom SOP Development

Our experts create tailored Standard Operating Procedures (SOPs) specific to the technology systems deployed, providing clear guidelines for system use and troubleshooting.

03 Digital Infrastructure Solutions

Low Voltage & Electrical Design

Collaborating with construction teams, we ensure low voltage and electrical designs meet brand requirements, including precise routing of cables for network and POS systems.

Low Voltage Maps

We produce detailed low voltage maps to align with operational needs and the physical layout of the space.

Floor Plans & Guest Flow

By reviewing floorplans, we determine optimal locations for POS and other technology stations, enhancing the guest experience through strategic placement.

Network Architecture & Tech Stack

We design an IT network architecture tailored to your operation, covering Wi-Fi, internet services, VoIP phone setup, security systems, back-office systems, and coordination with AV teams.

Scalability & Future-Proofing

Our systems are designed to scale with future growth and technological advancements, ensuring your investment supports both current and long-term needs.

04 Risk Management & Contingency Planning

Technology Risk Strategy

We develop a comprehensive risk management plan to identify potential points of failure in the technology setup, with contingency plans to address issues that may arise during opening or initial operations.

Mitigation Plans

Our proactive strategies for minimizing disruption include backup systems and alternative workflows, ensuring operational continuity in the event of system failure.

05 Digital Strategy Deck

This Digital Strategy Deck ensures that the client has everything they need to either continue working with us for implementation or hand the project off to their internal team for execution. A comprehensive deliverable that includes:

Recommended Systems & Network Designs

We provide a detailed breakdown of recommended technology systems tailored to your operational needs and objectives.

Vendor Contacts

Our curated list of vendor contacts streamlines communication and follow-up.

Copies of Agreements

All vendor contracts and terms are compiled in one place for easy reference and management.

Project Timelines

We develop a complete critical path and project timeline for technology setup, installation, and training to keep your opening on track.

Custom SOPs

Tailored Standard Operating Procedures (SOPs) are provided for each technology system, ready for implementation by your team.

OPTIONAL ADD-ONS

01 Performance Monitoring Post-Opening

Service

Break Bread Consulting offers a post-launch performance monitoring service for 30 to 90 days, ensuring that system performance is closely tracked and optimized. Real-time adjustments and support are provided based on operational feedback, helping you maintain peak efficiency during the critical early stages.

Purpose

Our monitoring service addresses any technology issues immediately after launch, minimizing operational disruptions and allowing your team to focus on core business activities with confidence.

SYSTEM IMPLEMENTATION

For clients requiring full system setup and installation, our System Implementation Team provides hands-on execution for all technology requirements. This service is structured separately, with scope and pricing customized according to project complexity and the systems involved. System Implementation Services include:

01 System Setup & Configuration

Comprehensive Setup

We manage the complete setup of essential systems, including POS, inventory management, payroll, and other foundational technology platforms, to create a fully integrated operational environment.

02 System Integration

Seamless Integration

Our team ensures all systems are integrated for optimal performance, connecting platforms for POS, accounting, HR, and reporting to facilitate smooth, interconnected operations.

03 Team Onboarding & Training

Staff Training

We provide in-depth training for your staff on system use and troubleshooting, ensuring they are fully prepared to operate all new technology confidently and efficiently.

04 Ongoing Support

Post-Launch Support

Break Bread Consulting offers comprehensive support following system launch, addressing any issues that may arise to ensure smooth operations and consistent performance.

Pricing for implementation is customized based on the project's complexity, the technology systems involved, and the number of locations. Our team will work with you to create a package that best fits your operational needs and goals.

PRICING STRUCTURE

Our monthly pricing for Fractional CTO Services begins at \$3,800, with customized rates reflecting the scope and complexity of each project. This flexible pricing structure allows us to provide the level of support and expertise your concept requires, ensuring that every element of your new location is optimally executed and fully aligned with your strategic goals.

KEY BENEFITS

Break Bread Consulting empowers your restaurant with streamlined technology, allowing you to focus on delivering exceptional hospitality. Our New Location & Store Opening Fractional CTO Services provide expert guidance, seamless coordination, and custom solutions to ensure a successful launch for your opening.

Expert-Level Guidance

Benefit from the strategic insight of a CTO experienced in restaurant technology, ensuring that all technical aspects of your new location are handled with precision and expertise.

End-to-End Coordination

Acting as the liaison between construction, operations, and IT vendors, we streamline the opening process, enabling seamless coordination across all functions and minimizing disruptions.

Custom Solutions

Whether you require advisory support or full system implementation, we offer flexible packages tailored to the unique needs of your project, providing exactly the support you need for a successful launch.

Digital Strategy Deck

Our handoff-ready Digital Strategy Deck empowers your internal team with all the details needed to execute the technology plan independently, ensuring no steps are overlooked.

GET IN TOUCH

Our mission at Break Bread Consulting is to simplify, streamline, and elevate your restaurant's technology ecosystem, allowing you to focus on what truly matters—providing an exceptional hospitality experience. With our Fractional CTO Services, we offer the expertise, coordination, and strategic insight to ensure a seamless, successful launch for your new location.
